

Minivator Outdoor stairlift

ARE YOU HAVING PROBLEMS WITH EXTERIOR STAIRS?

Thanks to Minivator's Outdoor Stairlift, exterior stairs are no longer a problem.

Following the outstanding success of the Minivator 1000 Straight Stairlift, the system has been developed for outside use too.

The waterproof standard luxury seat not only looks great, its ergonomic design provides a safe, reliable and comfortable way of overcoming the difficulties that can be caused by steps.

EASE OF USE

The unique operational toggle requires only minimum pressure to use the lift making this an ideal solution for users with limited hand flexibility.

In addition remote controls stationed at the top and bottom of the lift allow it to be called from or sent to the opposite end of the track – great for multi-user locations.

PRACTICAL

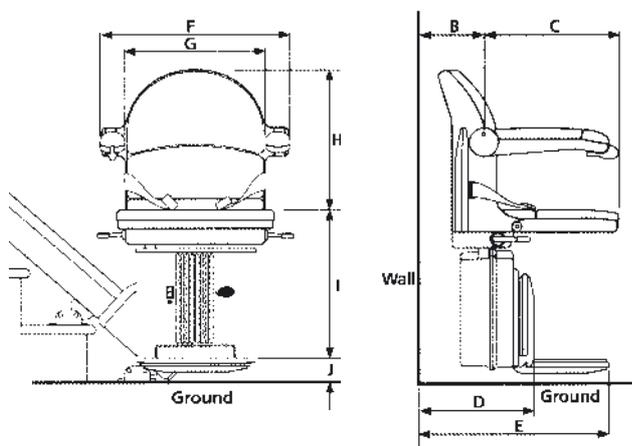

The slimline track and foldaway seat ensure that the stairway is left clear for pedestrians too.

This fully waterproofed unit also comes complete with a waterproof cover to help keep it clean.

Minivator OUTDOOR STAIRLIFT

TECHNICAL DATA	
A Minimum swivel radius	725mm#A
B Minimum wall to seat back	148mm#B
