

# Through-floor Lift

A modern and unobtrusive solution  
providing access over 2 floors

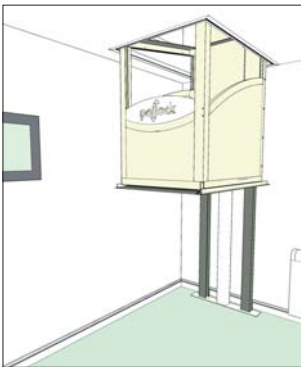

Designed using state-of-the-art lift technology, the Through-floor Lift maximises the space available to you; when you are downstairs, the lift can be moved quietly and discreetly back upstairs, leaving you the full use of your living space.

Choose from the following models:

**Wheelchair**

**Seated**

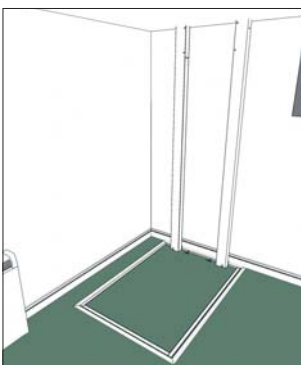

**Side-hung**

1. From the ground floor the lift moves smoothly upstairs

2. Exit the lift at first floor level

3. Return lift to ground floor for full use of floor space

**standard features**

- > Internal use only
- > Dual level travel
- > Hydraulic or Pollock Lifts unique Traction Drive system depending on requirements
- > Smallest footprint with largest internal car size on the market
- > Self levelling mechanism for uneven floors
- > Strong lightweight aluminum frame
- > New type trapdoor arrangement
- > On board diagnostic display
- > Remote monitoring system

**safety features**

- > Sensitive edges
- > Emergency alarm and fire response system
- > BS5900 Certification and CE compliant
