

Rebound Therapy Approved Hoist

About Dolphin Mobility

Dolphin supply, install and service products for the disabled. We are a specialist supplier of stairlifts, hoists, access lifts and swimming pool lifts. As an official distributor of the Handi-Move Victor hoist we also welcome trade enquiries.

The Victor Mobile Hoist

Manufactured by Handi-Move International, the Victor hoist has a very large lifting range and is widely used for rebound therapy.

Features

Lifts a person from the floor or from a wheelchair onto a regulation size 77A trampoline. Twice as fast as an average hoist. Lifts up to 225 kg. Designed for intensive use. Electrically adjustable base. The users knees never collide with the hoist during rotation. Can be used with body support systems and/or slings.
