**SEMI-PORTABLE
AQUATIC LIFT**

A deck mounted aquatic lift that can be used with existing sleeves. The unique design of the **Splash!** keeps all swim-ming lanes clear when the unit is in place. The **Splash!** is also perfectly suited for residential pools.

FEATURES:

- A removable deck mounted aquatic lift. Can be used with existing deck anchors or easily installed with any standard anchor.
- Provides 359° turning radius for safe transfers away from pool edge. Does not impede swim lanes.
- Powered by a 24-volt rechargeable battery, which powers a mechanical actuator. This combination insures that the **Splash!** will work when you want it to work. Every time.
- Easy to use: The **Splash!** can be operated by either the user or an attendant. Its hand control is completely waterproof.
- Consistent and reliable. No need for water pressure to run unit.
- Provides a 300 lbs. lifting capacity with standard **Splash!**, or 375 lbs. with **Splash!** HD (Heavy Duty) version. It is truly the easiest way to get everyone into the water.
- Safe, secure and effective with hundreds of units sold to city and state recreational facilities, schools, rehabilitation facilities, YMCAs, colleges, and residential users.
- Virtually maintenance free and made with corrosion proof materials. A life-time warranty on the frame.

SPLASH! SERIES

- Splash! Spa (replaces Hi)**
Designed for use with spas up to 52" (132 cm) above the deck.
- Splash! Hi/Lo**
The perfect accessory for facilities that have an above ground spa and an in-ground pool. The dual position chair allows a single lift to be used in both locations.
- Splash! HD**
Increased lifting capacity to 400lb. Our standard seating system is designed to accommodate users in this weight range.
- Splash! Extended Reach**
For use with pools with unusual gutter configurations requiring a longer reach to the water line.
- Splash! Mariner**
A sling lift user to transfer users from a floating dock onto a boat.

Splash! Caddie
Facilitates, transports and storage

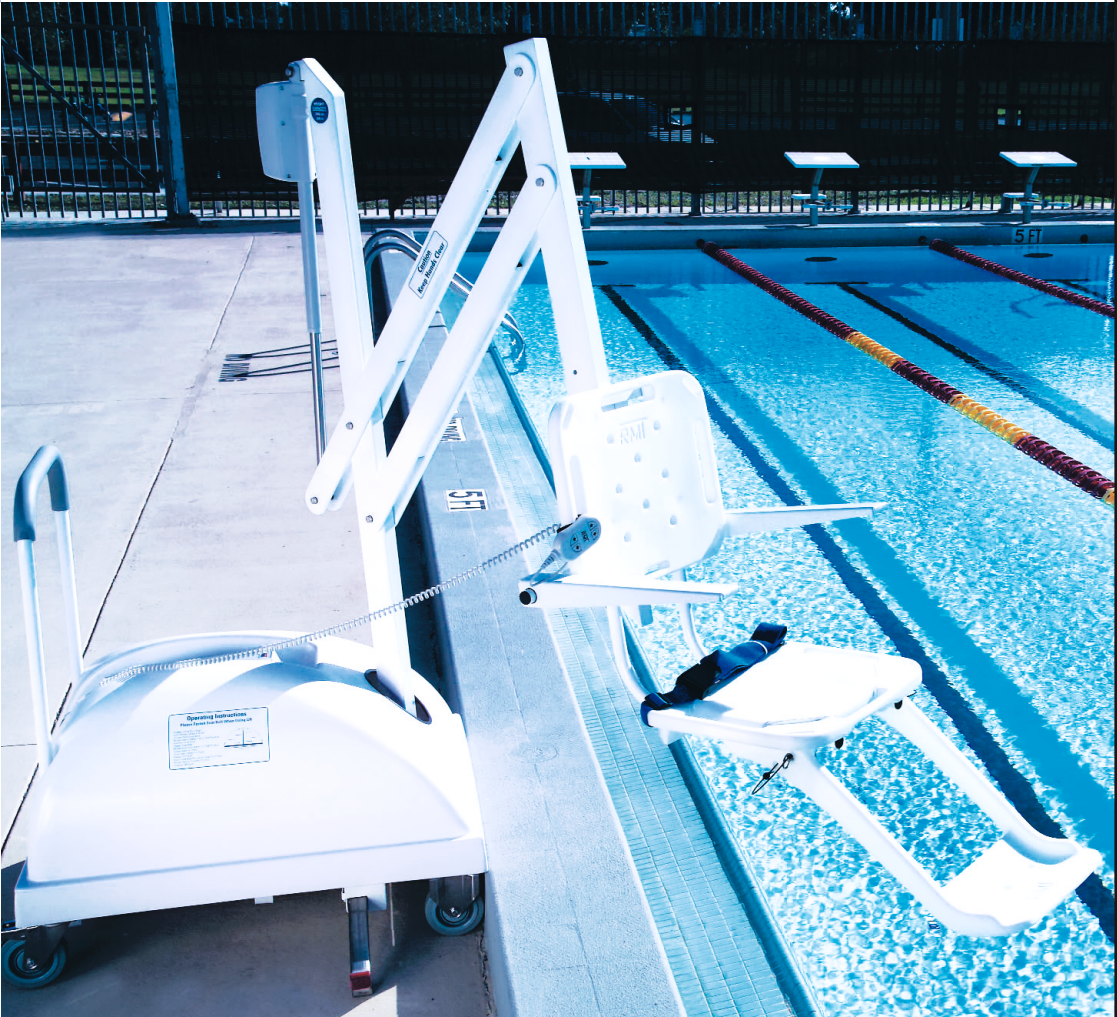

PAL SERIES

- PAL Hi-Low**
A variation of the PAL designed to be used in facilities that have both in ground pools and above ground spas.
- PAL Spa (replaces HI)**
Designed for above ground pools and for above ground spas up to 52" above the deck.

Storage Position

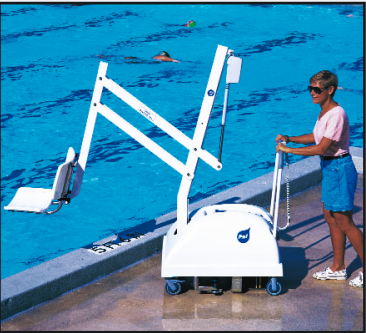

PAL Hi-Low

**PAL - PORTABLE
AQUATIC LIFT**

Our flagship product and an ideal product for commercial aquatic facilities.

FEATURES:

- Completely Portable: Requires no mounting to the pool deck. It is the perfect solution for facilities with multiple pools. It can be set up anywhere along the pool deck, and put away when not in use.
- Consistent Operation: Features a 24-volt rechargeable battery, which powers a mechanical actuator. This combination insures that the **PAL** will work when you want it to work. Every time.
- Easy to use: Can be operated by either the user or an attendant. Its hand control is completely waterproof. Just roll the **PAL** to the edge of the pool, lock the wheels, set the stabilizers, and the **PAL** is ready to use.
- Accessibility: Makes any pool accessible in seconds. It provides a 300-pound lifting capacity and a 240° turning radius for safe transfers away from pool edge. It is truly the easiest way to get everyone into the water.
- Virtually maintenance free and made with corrosion proof materials. A life-time warranty on the frame.
