

Fixed Ceiling Lift **V10**

With a growing rate of obesity within the population... the risk of caregiver lifting related back injury has never been greater!

It's the solution you have been looking for to ensure the safe and dignified transfer of your nonambulatory bariatric patients. The V10 is a fixed ceiling lift that offers a lifting capacity of : 1000 lb (455 kg)

# Product	Description	Market
9120001	V10 - 4 Directions	North America
9120008	V10 - 4 Directions	Europe & United Kingdom

# Part	Description	9120001	9120008
1	700.13650 Hand Control - 4 Way	•	•
2	700-15501 Charging Station	•	•
3	700.05570 4-point Spreader Bar	•	•

Features

Weight	22 kg (48 lb)
Lifting capacity	455 kg / 1000 lb
Soft start & stop movement	
Return to charge function on handset	

Safety Features

Emergency lowering device	Manual & electric
Device for emergency stop of the mechanism	Helps to prevent freefalls
Emergency Stop Pull Cord	

Technical Specifications

UL STD 2601-1 / ISO 10535 / CSA C22.2 No. 601.1 - M90 / IEC 60601-1	
Vertical displacement speed at 455 kg (1000 lb) at 230 kg (500 lb)	3 cm/sec (1.2 in/sec) 4 cm/sec (1.6 in/sec)
Horizontal displacement speed programmable	10, 14, 16 ou 20 cm/sec; (3.9, 5.5, 6.3 ou 7.9 in/sec) Par défaut : 16 cm/sec (6.3 in/sec)

Battery Specifications

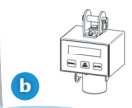

Rechargeable sealed lead acid	(2X) 12VDC, 7Ah
Side rail mounting, position anywhere, charging system	
Battery capacity with load of 91 kg / 200 lb/ 14.33 st	Up to 120 transfers
Low battery warning indicator	Visual & audible
Charger input – 90-240 Vac, 50-60 Hz, 57-70 VA max.	
Charge indicator	Visual

Strap Specifications

Length	2,3 m (90.6 in)
Automatically stops unit if twisted	

Unit Construction

Frame – steel
Cover – fire retardant plastic

Accessories

a	402.15508	Charger extension - 2 m (78 in)
b	700.00525	Scale Unit / 455 kg (1000 lb) (North America)
b	700.00535	Scale Unit - Class III / 500 kg (1102 lb) (Europe & United Kingdom)
